Thank you for your interest in Heritage Instructional Services. Based on our recent growth and expected reenrollment numbers for fall of 2023, we have made some changes to our typical admissions calendar:

- **Our 2022 Winter Open House has been canceled.** Though we truly love welcoming new families and sharing about our program, we have realized that an open house would be a misrepresentation of our position this year, as it implies that we have many spaces available.
- **New inquiring families are invited to fill out our [Statement of Interest form](#),** which will allow us to place their students on our preliminary waiting list and contact them as spaces become available.
- Enrollment will open to our *current/returning families* in mid-February. In mid-March, any open spaces will become available to new inquiring families with students on our waiting list. As space permits, we will reach out to waiting families to schedule tours, shadow days, and application information.

We expect to have the most open spaces in **kindergarten** and **fourth grade**. In other classes, it is possible we will not have any openings for new families, but we won't know for sure at least until mid-March, once our returning families have their opportunity to reenroll.

We realize that it may be disappointing to learn of our limited openings. As much as we wish we could serve everyone, we thank you in advance for understanding that our space and resources are limited. We pray that God will faithfully meet the needs of all our inquiring parents and direct them clearly in the educational choices they make for their students.
